

Specific Tools and Solutions for Cybersecurity Compliance

REGISTER TODAY

Cybersecurity must be taken seriously by any business. And if you are a **tiered-supplier for a Department of Defense contractor**, your **compliance** with the Defense Acquisition Regulation Supplement (DFARS) clause 252.204-7012 is **mandatory**.

This free event will cover:

1. A **three-step approach for assessing your information systems** to assure DFARS compliance
2. **Tools and solutions** applicable to your business that provide authentication options and cybersecurity response measures

CONNSTEP and **BlumShapiro Consulting** are presenting the assessment approach and cyber-solutions, respectively. An outline of what will be presented is available on the registration page.

Register today for this no-cost, two-hour session to ensure your business is **cyber-protected** and **federally-compliant**.
